

**Make the
Sports Parents
Promise**

2019 Parent's in Sport Week

7th – 13th October 2019

It's important that all parents with children taking part in sport know what their responsibilities are when it comes to choosing a safe club and being a positive influence on their child's participation.

That's why a new Sports Parents Promise has been launched on the CPSU website to help parents keep their child safe and happy in sport:

thecpsu.org.uk/parentspromise

Parents can make this Promise to their children by ticking a box in the online form and signing up to the points made in the Promise.

Each point links parents to further guidance on a range of things, from positive side line behaviour to what makes a safe sports club.

In return, parents can **download a personalised certificate** – stating that they are a positive sports parent and that they've made the Promise – to share on social media and beyond.

We are encouraging as many LGFA parents as possible to make the Promise before the end of the week in your club!
